Ambient, impressionistic blend of electric and acoustic guitar that mesmerizes the listener without seeming intrusive or sleep-inducing . . . designed to enhance a feeling of peace and calmness. Original compositions are dreamy and tranquil, reflecting a unique inner journey. Highly recommended for massage and spa, meditation, yoga, reiki, hypnotherapy, stress-relief relaxation and pure enjoyment.

Run time: 62:20

*" Imagine a peaceful journey to a place where time and space are infinite and you are enveloped by a tranquil energy . . . this is my creative vision for Detaching the World, a CD series of meditative guitar music inspired by the wonder of nature which I hope helps you to 'detach' from worldly cares and concerns."*

Emil Gagliardi, composer/guitarist
