Reviews:

ROSE for the Dust lifts the listener into a high spiritual space that is at once ancient, now, and not yet. The melodies and rhythms evoke South Asia, Southeast Asia, and Arabia.

*Karen Ann Watson-Gegeo, Ph.D.,
Professor, University of
California, Davis*

ROSE For The Dust reveals that the purpose of music is to bring us deeper into our souls and into our mind.

The energy is quiet, peaceful, thoughtful and sophisticated, and it makes one want to sit still and just listen.
